Profile

I am a skilled frontend developer and tech writer. My expertise spans web development, network maintenance, and technical writing, allowing me to craft user-friendly, responsive websites and applications. I have strong knowledge in HTML, CSS, JavaScript, React, and Tailwind CSS, alongside networking fundamentals from my CCNA certification. I'm currently expanding my skills in DevOps and Node.js.

Education

- CCNA Certification – KCA University, 2012
- Diploma in Information Technology – Nairobi Aviation College, 2008-2009
- Frontend Web Development 2023-2024 – The Odin Project and Study Tonight (Online)

Experience

- Web Developer – Upwork (Jan 2024 – Present)
- Freelance Tech Writer (2015–2024)

Created technical content for fintech websites and blogs, delivering clear and engaging materials for overseas clients.

- System Administrator – Athi River Shalom Community Hospital (2013)

Trained staff in using hospital software, handled software implementation, and maintained IT systems.

- ICT Support Assistant – Omega Technology LTD (2010–2012)

Provided hardware/software support, installed network systems, and conducted preventive maintenance.

Skills

- Frontend Development: HTML, CSS, JavaScript, React, Tailwind CSS
- Backend Knowledge: Node.js, MongoDB, MongoDB Atlas
- Networking: LAN/WAN, CCNA-certified
- Tech Writing: Fintech and technical product documentation
- IT Support: Hardware/software maintenance, network design, data backups

Languages

- English, Swahili
